WELL CONSIDERED, EFFICIENT SMALL PARTS STORAGE

Good storage planning requires the combination of many elements. Treston offer a flexible and first class range of storage solutions to build an effective storage system. Our range of small parts cabinets, bin cabinets and many kinds of storage bins give many options to store a wide variety of items. Our storage bins are moulded from sturdy polypropylene, making them strong and stable in all normal conditions. Large label areas offer easy identification of contents, and bin colour options are provided for colour coding systems. Other options include cabinet turntables, stands and trolleys offering further flexibility. Whatever your requirement, you will find something to suit in the wide range of TRESTON storage products.

TRESTON QUALITY

TRESTON is an ISO9001:2000 registered company. Certification include the design, development, manufacture and marketing of the company's range of storage equipment and industrial furniture.

VISIBLE STORAGE CABINETS

Clear Drawer Storage Cabinets Series 290

Our clear drawer storage cabinets provide stylish industrial quality storage for hundreds of components. Built from strong polypropylene, the cabinets are suitable for any technical, manufacturing or industrial environment.

The overall size of the series 290 is half that of the series 550. These cabinets take little space and provide effective storage. They can be wall hung or mounted on spacesaving turntables, stands or stood on the worktop.

- Galvanised steel shelves provide space for between four and thirty storage bins
- Transparent polystyrene storage bins enable quick identification of contents, with adhesive labels also supplied
- Corrugated bases enable rapid picking of components from storage bins

Features of the Small Parts Drawers

- The crystal clear drawers are transparent, allowing visual identification
- Each drawer has a corrugated base to simplify picking
- A large, sturdy handle provides a full width label area

Accessories: Cross and Length Dividers
